Education

Exchange Semester Jan 2027 – May 2027
Edinburgh Napier University *Edinburgh, Scotland*
- Courses: Computational Intelligence, Computing in Contemporary Society, Interactive Data Visualisation

B.Sc. Computer Science and Media Mar 2023 – expected Mar 2028
Stuttgart Media University *Stuttgart*
- Relevant coursework: Software Development 1-3, semester-long software engineering project, Algorithms and Data Structures, Web Development, C++, Software Development for Cloud Computing, Software Defined Infrastructure, Speech Interaction, Functional Programming (Clojure)

General Higher Education Entrance Qualification 2018 – 2021
Grafenbergschule *Schorndorf*
- Technical high school with specialization in information technology

Experience

Working Student Support & Enablement Oct 2026 – present
Conceptboard *Stuttgart*
- Interface between growth, sales and IT teams.
- Technical customer support and bug triage across multiple escalation levels.
- Automated monthly reporting; data maintenance and migration.
- Designed proofs of concept (PoCs) to optimise internal support processes.

Cyber Security Intern Mar 2026 – Aug 2026
Mercedes-Benz Financial Services *Stuttgart*
- Intern in the Global Cyber Security team of Mercedes-Benz Financial Services.
- Supported all cyber security domains: governance, risk and compliance, security architecture engineering, offensive security, identity and access management.
- AI security, agentic coding and AI-agent-based process optimisation.
- Microsoft Fabric, Power BI, GitHub Actions, Microsoft Copilot agents, automation.

Junior Customer Support Technician Aug 2023 – Feb 2026
Conceptboard *Stuttgart*
- Served as the interface between Key Account Management and IT Ops by executing routine operational requests (licenses, invoices, templates), unburdening Ops and improving response flow.
- Analyzed Metabase data to identify root causes of payment, login, and registration issues.
- Automated report generation by building parameterized Metabase queries from Excel inputs; reverse-engineered internal APIs in Python to streamline license adjustments.
- Coordinated bi-weekly product webinars by scheduling sessions, aligning trainers, and ensuring readiness.

Trainee Aug 2021 – Jan 2023
Skjulte Skatters Forlag *Hamar, Norway*
- Work-and-travel year focusing on music production and delivering music education.
- Conducted workshops on digital music production.
- Responsible for administrative tasks and production of live performances.
- Website creation and maintenance.

Projects

Ear-Training Web App | *Svelte, TypeScript, Go, PostgreSQL, Terraform* In development
- TypeScript monorepo with a Svelte 5 SPA, a framework-free domain core (spaced repetition, adaptive difficulty) and a Go API (sqlc, goose) on PostgreSQL, bound by an OpenAPI contract.
- Benchmarked in-browser pitch detection algorithms; McLeod in an AudioWorklet reached 1.2 cent median error vs. 6.9 (YIN) and 8.6 (CREPE).
- Infrastructure as code with Terraform on Hetzner Cloud, self-hosted Keycloak auth, pgBackRest backups with restore checks, dev/staging/prod CI/CD and 19 architecture decision records.

vuln-tracker | *Python, GitHub Actions | github.com/julian-schn/vuln-tracker* 2026
- Pulls new CVEs from the NVD 2.0 API every 2 hours via GitHub Actions and enriches them with FIRST EPSS scores and CISA KEV flags.
- Ranks a Top 50 by a composite risk score and publishes it as a zero-JavaScript static site on GitHub Pages.

Offline Live Translator | *FastAPI, SvelteKit, NLLB-200, Qdrant, Docker* 2026

- Fully offline German ⇄ Norwegian live translation for events, built as four Docker Compose services.
- Serves Meta's NLLB-200 quantised to int8 via CTranslate2; semantic search over past translations with BGE-M3 embeddings in Qdrant.

Car Detailing ERP | *Go, AWS Lambda, Supabase* Nov 2025 – Mar 2026

- Co-developed a Go REST backend on AWS Lambda (SAM, API Gateway) replacing a paper-based workflow for a car detailing business.
- Owned infrastructure and CI/CD: separate prod and staging stacks, CloudFront/S3 frontend hosting, CloudWatch/SNS alerting, cost budgets and GitHub Actions deployments.
- Defined the API in OpenAPI 3.1 and wrote deployment, operations and disaster-recovery runbooks.

Technical Skills

Languages: Go, Java, Python, TypeScript, SQL, C++
Backend & Cloud: Spring Boot, FastAPI, PostgreSQL, DynamoDB, AWS (Lambda, API Gateway, S3, CloudFront), Terraform, Hetzner Cloud, Docker, Keycloak/OIDC
Frontend: Svelte, React, Flutter
AI/ML: LLM agents & agentic coding (Claude Code, Ollama), Whisper/ASR, ONNX, RAG (Qdrant)
DevOps & Tools: Git, GitHub Actions, Playwright, Vitest, JUnit, Proxmox, Linux, macOS, Jira/Confluence

Volunteer Work

Tutor for Software Development 3 Winter Semester 2026/27
Stuttgart Media University

Youth Work & Musician 2019 – present
DCG Waldhausen e.V.

- Children's church and youth group work; musician.
- Teacher and translator for work-and-travel programmes (English, Norwegian, German).
